10 REASONS TO ABOLISH THE IMF AND WORLD BANK 2ED (PAPERBACK)

Seven Stories Press,U.S., United States, 2004. Paperback. Book Condition: New. 2nd New edition. 174 x 120 mm. Language: English . Brand New Book. A veritable Globalization for Dummies, 10 Reasons to Abolish the IMF World Bank lays bare the most common myths of globalization in a clear and understandable way. Looking with hope to grassroots movement-building on a global scale, Danaher presents ten arguments for abolishing the IMF and World Bank and replacing them with democratic institutions that would make the global economy more accountable to an informed and active citizenry. Conceived as an effort to educate the public about how international institutions of free trade are widening the gap between the rich and poor globally, Danaher reveals how the lending policies of the IMF and the World Bank fail to benefit Third World peoples, and instead line the pockets of undemocratic rulers and western corporations while threatening local democracies and forcing cuts to social programs. Through anecdotes, analysis, and innovative ideas, Danaher argues that the IMF and the World Bank undermine our most basic democratic values, and calls for reframing the terms on which international economic institutions are operated using the principles of environmental sustainability, social justice, and human rights.
