This (second edition) guide, developed by the Police Foundation with support from the COPS Office, examines the disconnect between crime analysis and intelligence analysis found in many of the nation's law enforcement agencies. Smart deployment of resources at the tactical, operational and strategic level requires analysis of both crime data and criminal intelligence information, preferably in an integrated fashion. This book looks at ways in which departments can encourage information sharing between crime analysts and the special units that typically manage criminal intelligence for the purpose of presenting an analysis of all known information to aid in problem-solving efforts.
