

Methods of Using the Microscope, Camera-Lucida and Solar Projector: For Purposes of Examination and the Production of Illustrations (Classic Reprint) (Paperback)

By Nathan Augustus Cobb

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Methods of Using the Microscope, Camera-Lucida and Solar Projector: For Purposes of Examination and the Production of Illustrations For many years the writer has had microscopes mounted in this way and hereby testifies strongly in favor of this method of using the microscope. The system is exemplified in the Laboratory of the Division of Pathology and Physiology, and as experience has added improvements to each successive plant erected, it may be worth while to describe this recent outfit. The plan is carried out in cement and steel. See Fig. I. Below the building is a large block of cement weighing several tons. In this block of cement three T-girders, two of which are approximately eight inches in each dimension, arc imbedded vertically to the depth of about four feet. The central girder carries the microscope, together with certain accessory apparatus connected with the illumination of the object. This girder is much smaller and shorter than the other two, extending only about eighteen inches above the floor of the microscope room. The other two girders are...
